Individual
assembly
in sets

PROFESSIONAL | Production

Assembly competence

- Assembly of **individual products**, e.g. combination sets or cordless sets
- **High variety** through modular assembly with few materials
- **"In-line programming"**: We program the intelligence of the tool only after its assembly

A global distribution

 Production sites

 25 sales companies

 More than 100 importers

metabo®

PROFESSIONAL | Dialogue

Listening is
better than
"chatting"

We listen. A frequent exchange with our customers is most important for us. We visit customers **on-site or in the workshop** whenever it is needed.

metabo[®]

PROFESSIONAL | Career

From professionals for professionals

In order to offer our customers **best possible advice**, we need to know exactly what we are talking about. **Solid training** is top priority to us.
